UL Standard for Safety for Fire Pump Relief Valves, UL 1478

Fifth Edition, Dated March 17, 2023

Summary of Topics

This new edition of ANSI/UL 1478 dated March 17, 2023 includes editorial revisions to align with UL Standards & Engagement's style manual: Titles of referenced publications were added in a new section, the Components section was updated, reference standard titles were removed from the body, and some spelling and grammar changes were made.

The requirements are substantially in accordance with Proposal(s) on this subject dated December 30, 2022.

All rights reserved. No part of this publication may be reproduced, stored in a retrieval system, or transmitted in any form by any means, electronic, mechanical photocopying, recording, or otherwise without prior permission of ULSE Inc. (ULSE).

ULSE provides this Standard "as is" without warranty of any kind, either expressed or implied, including but not limited to, the implied warranties of merchantability or fitness for any purpose.

In no event will ULSE be liable for any special, incidental, consequential, indirect or similar damages, including loss of profits, lost savings, loss of data, or any other damages arising out of the use of or the inability to use this Standard, even if ULSE or an authorized ULSE representative has been advised of the possibility of such damage. In no event shall ULSE's liability for any damage ever exceed the price paid for this Standard, regardless of the form of the claim.

Users of the electronic versions of UL's Standards for Safety agree to defend, indemnify, and hold ULSE harmless from and against any loss, expense, liability, damage, claim, or judgment (including reasonable attorney's fees) resulting from any error or deviation introduced while purchaser is storing an electronic Standard on the purchaser's computer system.
