## SCC FOREWORD

### National Standard of Canada

A National Standard of Canada is a standard developed by a Standards Council of Canada (SCC) accredited Standards Development Organization, in compliance with requirements and guidance set out by SCC. More information on National Standards of Canada can be found at [www.scc.ca](http://www.scc.ca).

SCC is a Crown corporation within the portfolio of Innovation, Science and Economic Development (ISED) Canada. With the goal of enhancing Canada's economic competitiveness and social well-being, SCC leads and facilitates the development and use of national and international standards. SCC also coordinates Canadian participation in standards development, and identifies strategies to advance Canadian standardization efforts.

Accreditation services are provided by SCC to various customers, including product certifiers, testing laboratories, and standards development organizations. A list of SCC programs and accredited bodies is publicly available at [www.scc.ca](http://www.scc.ca).

UL Standard for Safety for Photovoltaic (PV) Luminaire Systems, ANSI/CAN/UL 8801

First Edition, Dated June 15, 2022

### **Summary of Topics**

***This is the First Edition of ANSI/CAN/UL 8801, Standard for Photovoltaic (PV) Luminaire Systems, dated June 15, 2022. These requirements apply to low voltage luminaire systems whose electrical power is derived from photovoltaic modules.***

The new requirements are substantially in accordance with Proposal(s) on this subject dated March 11, 2022.

All rights reserved. No part of this publication may be reproduced, stored in a retrieval system, or transmitted in any form by any means, electronic, mechanical photocopying, recording, or otherwise without prior permission of UL.

UL provides this Standard "as is" without warranty of any kind, either expressed or implied, including but not limited to, the implied warranties of merchantability or fitness for any purpose.

In no event will UL be liable for any special, incidental, consequential, indirect or similar damages, including loss of profits, lost savings, loss of data, or any other damages arising out of the use of or the inability to use this Standard, even if UL or an authorized UL representative has been advised of the possibility of such damage. In no event shall UL's liability for any damage ever exceed the price paid for this Standard, regardless of the form of the claim.

Users of the electronic versions of UL's Standards for Safety agree to defend, indemnify, and hold UL harmless from and against any loss, expense, liability, damage, claim, or judgment (including reasonable attorney's fees) resulting from any error or deviation introduced while purchaser is storing an electronic Standard on the purchaser's computer system.

ANSI/CAN/UL 8801:2022

Standard for Photovoltaic (PV) Luminaire Systems

First Edition

June 15, 2022

This ANSI/CAN/UL Safety Standard consists of the First Edition.

The most recent designation of ANSI/UL 8801 as an American National Standard (ANSI) occurred on June 15, 2022. ANSI approval for a standard does not include the Cover Page, Transmittal Pages, Title Page, Preface or SCC Foreword.

This standard has been designated as a National Standard of Canada (NSC) on June 15, 2022.

**CONTENTS**

**Preface .....5**

**INTRODUCTION**

1 Scope .....7  
 2 Components .....8  
 3 Units of Measurement .....8  
 4 Referenced Publications .....8  
 5 Glossary ..... 11

**CONSTRUCTION**

6 System Assembly ..... 11  
 7 System Subassemblies ..... 12  
     7.1 General ..... 12  
     7.2 PV Modules ..... 12  
     7.3 PV module adjustment mechanisms ..... 13  
     7.4 Batteries ..... 13  
     7.5 Battery charging circuitry ..... 14  
     7.6 Battery output circuits ..... 15  
     7.7 Controls ..... 15  
     7.8 Luminaires ..... 16  
     7.9 Electrical conductors and connections ..... 16  
     7.10 Mechanical structure ..... 16

**PERFORMANCE**

8 Performance ..... 17  
     8.1 Temperature test ..... 17  
     8.2 Battery charge rate and voltage limit measurement ..... 21  
     8.3 Battery charging circuit abnormal test ..... 21  
     8.4 Battery management system temperature protection performance ..... 22  
     8.5 Battery discharge abnormal test ..... 23  
     8.6 Static load mounting means test ..... 24  
     8.7 Mechanical tests for portable PV luminaire systems ..... 24

**MARKINGS**

9 System Markings ..... 25

**INSTRUCTIONS**

10 General ..... 26

**ANNEX A (Normative) – SYSTEMS WITH SUPPLEMENTAL POWER CONNECTIONS**

A1 Scope ..... 27  
 A2 Supplemental Battery Charging ..... 27  
 A3 Supplemental Luminaire Power ..... 27  
 A4 Utility Power Disconnect ..... 28  
 A5 Performance ..... 28  
 A6 Marking ..... 28
